## Introduction

JIGI, meaning hope in Bambara, is a Non – Governmental Organization certified by the government of Mali under agreement N° 0324 on April 30<sup>th</sup>, 1990. JIGI and the government of the Republic of Mali signed an official accord in 1991 demonstrating their shared commitment to the socio-economic development of Mali.

### ► Vision

JIGI aims to help Malian society govern and manage itself democratically, taking charge of our development for the improvement of our standard of living.

### ► Mission

The mission of JIGI is to contribute to the emergence of a strong civil society and stimulate a sustainable development for the well being of the citizens of Mali. This is achieved through undertaking projects in micro-finance, democratic governance, public health, environmental preservation and in education.

### ► Objectifs

- Aid the Malian population in self organization in order to determine their needs and to facilitate the finding of their own solutions
- Contribute to the improvement of the health conditions of Malian civil society
- Contribute to the fight against the exclusion of the disenfranchised and underprivileged
- Contribute to the fight against desertification and the extinction of animal and vegetable species
- Improve the economic conditions of Malian civil society

### ► Strategy

Our strategy is based on the effective participation of the communities implicated in the development, elaboration, management and evaluation of our projects.

### ► Approach

Our approach towards project development places emphasis on partnerships with local organizations, community authorities, state services as well as other partner NGO's in the implicated areas. We aim to produce a synergistic effect between our projects and programs through using the same target groups and maximizing the long term impacts of our activities.

### ► Target Groups

Our target groups include principally underprivileged and disenfranchised populations (women and children) as well as high risk groups (AIDS).

### ► Zones of Intervention

We work throughout the country of Mali in the areas of public health, microfinance, environmental preservation, education, community development and democratic management.

### ► Membres

JIGI is a member of CCA - ONG, Groupe Pivot Santé Population, The Region Coordination of NGO's in Ségou, RESMA and RONGAS.

### ► Partners
